IDLE BLOCKCHAIN GAME
F6 Galaxy was born with a mission to create a leading DeFi ecosystem. We are a team of highly trained professionals with an average experience of 11 plus years in the deep-tech industry as well as building enterprises with an accumulated value of over 400 millions USD.

Our company leadership is made up of experts in their very own field with past-experiences at various Tier 1 enterprises and startups such as Paypal, Google, Havas, CMN Online, Microsoft, BeGroup, Agribank, etc ensuring a concrete corporate foundation to withhold any challenges that may come.

We believe through blockchain and NFT, we shall create a new wave of entertainment that at the same time allows maximising the Play to Earn model for our community and beyond.
F6 Galaxy is critical when building our work environment. We ensure a maximum synergy between creativity and efficiency, hence keeping our players constantly engaged with new activity without delays.

If there is anything we love, it is to cater to our community, as well as the other communities to come. And to achieve that, we wholeheartedly believe in conducting our operation as transparent and honest at the highest possible level.

We are fantastic listeners and shall respond to every feedback as fast as possible. In fact we have our very own OKRs just for Feedbacks/Comments Handling.

We know exactly what we have to do to be among the best in this field. Utilising entertainment platforms such as GameFi and music to accumulate users using our unique methodologies; all for the preparation of an integrated Decentralized Financial Ecosystem.

TAUREUM (TAUM) is the first token in our long-term vision of a DeFi ecosystem, with the aim of making it easy for users to start engaging through gaming experience.

With TAUREUM, we will also develop its own unique NFT marketplace and connect decentralized communities. People will now be able to own exclusive rights on unique themes, game characters, videos, music, and much more.

We believe GameFi is the shortest way of reaching out to the huge potential customer base. In our ecosystem, players are not limited to one world but can access the metaverse and enjoy any world via multiple games and dApps. Leveraging the power of modern cryptography and blockchain technology, TAUREUM has the ambition to create fair, transparent games to contribute to the community.

Introducing Orbitau, our first game based on TAUREUM:
Orbitau is the very first game in our ecosystem, which is turn-based idle combat / socializing game suitable for everyone to play.

Characters in Orbitau are customized by users in all edges with countless choices from appearance to stats, creating a colorful world.

The game is developed on Unity and Binance Smart Chain (BSC).

Players will take on the role of different heroes to conquer highly challenging but rewarding quests.

- 3 primary attributes:
  - Strength
  - Intelligence
  - Agility

- 5 classes:
  - Ocean,
  - Ember,
  - Forest,
  - Earth,
  - Ore

Players can also join together to do co-op quests, form guilds, and battle each other.

During gameplay, players can create unique and valuable NFTs which they can trade on our marketplace.

In Orbitau, NFTs include Eggs, Heroes, Pets, Lands and Rare Items.
